In many illustrations throughout this magazine, safety guards have been removed for photographic purposes. This material is not intended to provide operational instructions. Appropriate BALDOR ELECTRIC Company instruction manuals and precautions should be studied prior to installation, operation, or maintenance of equipment. CONFIDENTIAL: The information in this DODGE-RELIANCE Magazine is intended solely for the use of BALDOR ELECTRIC employees and BALDOR ELECTRIC authorized distributors. No portion of this text may be reproduced without the permission of BALDOR ELECTRIC. WARNING: Because of the possible danger to person(s) or property from accidents which may result from the improper use of products, it is important that correct procedures be followed: Products must be used in accordance with the engineering information specified in the catalog. Proper installation, maintenance and operation procedures must be observed. The instructions in the instruction manuals must be followed. Inspections should be made as necessary to assure safe operation under prevailing conditions. Proper guards and other suitable safety devices or procedures as may be desirable or as specified in safety codes should be provided, and are neither provided by BALDOR ELECTRIC Company nor are the responsibility of BALDOR ELECTRIC Company. This unit and its associated equipment must be installed, adjusted and maintained by qualified personnel who are familiar with the construction and operation of all equipment in the system and the potential hazards involved. When risk to persons or property may be involved, a holding device must be an integral part of the driven equipment beyond the speed reducer output shaft.
